## Wall Mounted Compact Ciglow Flameless Lighter with Control Timer

---

### Description

The lighter is a stylishly designed unit made from stainless steel. It comes with an illuminated vandal resistant push button and is available with anti tamper fixing screws. The new design allows access to the workings of the lighter through a removable faceplate thus leaving the back box permanently secured to the wall.

### Mounting Style

This lighter is mounted onto a wall or similar flat surface. This unit requires connection to a mains power supply through a knockout at the base of the unit.

### Weatherproof Rating

This lighter is rated IP55 and is suitable for indoor use and outdoor use under a shelter.

### Element

This lighter uses the CIG-SL internally mounted screw-in element.

### Operation

This lighter operates a safety control timer. The user presses the push button then releases. The unit then runs through a cycle which heats up the element, switches it off, and then adds in a cool down period. The timer cannot be restarted whilst this cycle is running.

### Dimensions

Dimensions: 140 mm (h) x 85 mm (w) x 56 mm (d)

### Weight

1 kg
