## Freestanding Cigarette Waste Bin

---

### Description

The freestanding cigarette waste bin combines clean good looks with easy maintenance. Manufactured from strong and durable polyethylene and galvanised steel. The galvanised steel chamber restricts the flow of oxygen to discarded cigarettes, helping to extinguish them quickly and minimise smoke emitted from the unit.

Easy to service - no bending and no tools required, simply lift the chamber from the base whilst standing upright.

The unit features a high capacity ash containment system with anchor holes for additional security.

### Mounting Style

This unit is fitted with a base plate for ground placement.

### Dimensions

1029 mm (h) x 357 mm (w) x 357 mm (d)

Capacity: 600 Butts

207 Cotton Exchange, Bixteth Street
