

CIG-UN

Wall Mounted Ciglow Flameless Lighter

Description

The CIG-UN lighter has been sold since the mid 1960's and remains one of the most popular units on the market. The hard wearing unit was specifically designed for the world's toughest environments. The unit is made from powder coated steel and is fitted with an illuminated push button and quick change three pin element.

Mounting Style

This lighter is mounted onto a wall or similar flat surface. This unit requires connection to a mains power supply through a knockout on either side of the unit.

Weatherproof Rating

This lighter is rated IP44 and is suitable for indoor use.

Element

This lighter uses the CIG-EL three pin plug-in element.

Operation

This lighter is available in manual and timer option. The manual user presses the button and holds for as long as it takes to light the cigarette. The timer user presses the push button then releases. The unit then runs through a cycle which heats up the element and switches it off,
