## Wall Mounted Cigarette Waste Bin

---

### Description

An attractive, wall-mounted, weather-resistant solution for controlling smokers' waste.

The ashtray has an integrated extinguishing plate, and is made with a fire-safe galvanized steel inner liner, which minimises the risk of fires and smoke.

Available in heavy-gauge, hot-dipped galvanized steel construction or stainless steel.

Complete with key cam lock to prevent tampering.

Easy to service - no bending and no tools required, simply unlock, tilt and lift the chamber from the base unit.

### Mounting Style

This unit is mounted on to a wall or similar flat surface. Comes complete with full mounting kit.

### Dimensions

317 mm x 254 mm x 76 mm

Capacity: 300 Butts
