

CIG-SS

Wall Mounted Stainless Steel Ciglow Flameless Lighter with Control Timer

Description

The lighter is a stylish anti ligature design made from marine grade stainless steel. The unit is fitted with an illuminated push button and is available with anti tamper fixing screws. The unit has been designed for use in robust environments where naked flames pose a risk to people, property and assets.

Mounting Style

This lighter is mounted onto a wall or similar flat surface. This unit requires connection to a mains power supply through a knockout on the rear of the unit.

Weatherproof Rating

This lighter is rated IP65 and is suitable for outdoor use in all weather conditions.

Element

This lighter uses the CIG-SL internally mounted screw-in element.

Operation

This lighter is available in manual and safety control timer option. The manual user presses the button and holds for as long as it takes to light the cigarette. The control timer user presses the push button then releases. The unit then runs through a cycle which heats up the element, switches it off, and then adds in a cool down period. The timer cannot be restarted whilst this cycle is running.

Dimensions

Dimensions: 230 mm (h) x 165 mm (w) x 75 mm (d)

Weight

4 kg
